

Danger of Bad Brakes, Tires, Lights Cited

Defective brakes, bad tires and improper lights led the list of motor vehicle defects noted in injury and fatal traffic accidents in California last year according to a report released by the California Highway Patrol.

"Defective brakes accounted for 48.1 per cent of all mechanical defects found in fatal and injury accidents during 1957,"

declared Patrol Commissioner B. R. Caldwell. "This reveals an evident lack of proper care of brakes by some motorists."

"Smooth tires, punctures, and blowouts totaled 18.6 per cent of all such defects indicating care of tires is essential to motoring safety," Caldwell stated.

"Improper lights added up to 12.2 per cent of the defects noted in injury and fatal accidents during the past year."

"Other reported deficiencies were worn steering mechanisms, inadequate windshield wipers, rear view mirrors in poor condition, and cracked or damaged windshields and windows," he continued.

NEW FOR OLD—Mrs. Mary B. Stock won a brand new Hoover vacuum cleaner from Bakers Furniture Store, which conducted a search for the oldest sweeper in Torrance. Mrs. Stock had a machine she bought in 1920, and proudly receives a 1958 model as a prize from Wayne Dibley, a salesman at Bakers.

Optometrists Move to New Offices

Torrance optometrists Dr. Roger A. Thill and Dr. Eleanore Z. Thill have recently moved to newer, larger offices on Hawthorne blvd. at 240th st. Drs. Thill, both members of the Los Angeles County Optometric Association, maintained their practice for the past three years at 3810 Pacific Coast Highway, and for three years prior in Lomita.

Dr. Roger Thill is increasing his professional education by performing studies in other fields. In June he graduated from the College of Osteopathic Physicians and Surgeons and is at present taking his California State Board examinations. He plans to intern at the new Long Beach Osteopathic Hospital.
